

Regulatory status for using RFID in the UHF spectrum 24 November 2006

The table attached provides an overview of the Ultra High Frequency (UHF) regulations worldwide. Suggestions for amendments, updates or additions to this report are welcome and should be communicated to Henri Barthel at GS1 Global Office (henri.barthel@gs1.org).

Each entry includes the following data:

- ❑ **Country name.** All GS1 member countries as well as major non-member countries are included, representing a total of 98,46% of the world Gross National Income (GNI).
- ❑ **Status.** The following convention indicates the status of UHF regulation in the country:

OK Regulations are in place or will be in place shortly

IP In Progress. Appropriate regulations expected within 6 to 12 months

NA Information Not Available

- ❑ **Frequency.** Indicates the frequency band(s) authorised in the country for RFID applications. The objective is to get a band available in the 860 to 960 MHz spectrum.
- ❑ **Power.** Indicates the maximum power available to RFID applications. The power is expressed either as eirp (Effective Isotropic Radiated Power) or erp (Effective Radiated Power). Please note that 2 Watts erp is equivalent to 3.2 Watts eirp.
- ❑ **Technique.** Indicates the reader to tag communication technique. FHSS stands for Frequency Hopping Spread Spectrum and LBT stands for Listen Before Talk.
- ❑ **Comments.** Provides additional information on the regulatory status.
- ❑ **Regulator.** Name, telephone number, email and URL of the national body responsible for regulations.

The following statistics can be derived from the data that are currently available:

- ❑ Regulations are in place or will be in place shortly in 40 countries representing 81,6% of the global GNI.
- ❑ Regulations should be settled within 6 months in 26 countries representing 14% of the global GNI.
- ❑ Information is not yet available for 50 countries representing 2,8% of the global GNI.

NOTE: The following countries were updated since the last publication of 30 August 2006: France, Singapore, The Netherlands.
